

Logistics Manager

[Apply Now](#)

Company: PRI

Location: Lusaka

Category: other-general

As a Logistics Manager, you will be responsible for overseeing and optimizing all aspects of the supply chain process to ensure efficient and cost-effective movement of goods. Your role involves strategic planning, coordination, and management of logistics operations to meet organizational objectives.

Key Responsibilities:

Supply Chain Management:

Develop and implement effective supply chain strategies to optimize logistics operations.

Monitor and manage end-to-end logistics processes, from procurement to delivery.

Team Leadership:

Lead and manage a team of logistics professionals, fostering a collaborative and high-performance work environment.

Provide guidance, coaching, and training to team members.

Vendor Management:

Establish and maintain relationships with suppliers, carriers, and other logistics partners.

Negotiate contracts and agreements to ensure favourable terms and conditions.

Inventory Control:

Implement inventory management best practices to optimize stock levels and minimize holding costs.

Oversee the accuracy of inventory records and conduct regular audits.

Cost Optimization:

Identify cost-saving opportunities within the logistics process without compromising quality or service.

Analyze transportation, warehousing, and distribution costs and implement cost-effective solutions.

Compliance and Regulations:

Stay abreast of relevant laws and regulations affecting logistics operations.

Ensure compliance with customs, import/export regulations, and other industry standards.

Performance Metrics:

Define and track key performance indicators (KPIs) to measure the efficiency and effectiveness of logistics operations.

Implement continuous improvement initiatives based on performance metrics.

Technology Integration:

Evaluate and implement logistics technology solutions to enhance operational efficiency and visibility.

Stay current with industry trends and advancements in logistics technology.

Risk Management:

Identify potential risks in the supply chain and develop strategies to mitigate them.

Implement contingency plans to address unforeseen logistical challenges.

Communication:

Collaborate with internal departments such as sales, production, and customer service to ensure seamless coordination.

Provide regular updates to stakeholders on logistics performance and improvements.

Qualifications:

Bachelor's degree in Logistics, Supply Chain Management, Business, or a related field.

Proven experience in logistics management, with a track record of successful supply chain optimization.

Strong leadership and team management skills.

Excellent analytical and problem-solving abilities.

Knowledge of logistics software and systems.

Effective communication and negotiation skills.

Familiarity with relevant regulations and compliance requirements.
